ankinaik92@gmail.com | +64225475450 | <https://ankitanaik19.github.io/ankitadesign/>

I am an IT Professional with end to end experience of development and design techniques. I am keen to work for a position, where my past work experience matches the organisation's growth and strength that relates the end goals of clients by providing and implementing result-driven and cost-efficient solutions. I have proven my ability to plan, schedule, and complete tasks on time independently and within the team.

COMMUNITY & VOLUNTEERING EXPERIENCE

Computer Trainer in Digital Inclusion Alliance Aotearoa -Wellington, New Zealand

December 2019 - Present

I am currently working as a volunteer trainer. My aim is to make digital technology approachable to different age groups of the community by training them.

- Training members about technology and the digital world.
- Giving brief knowledge about computer systems.
- Interacting and solving their technology related problems.
- Making them aware of scam and frauds in today's internet world.
- Showing them how to get familiar with MS Office, Internet banking, Online shopping, Applying for jobs and different search engines.
- Giving them insight into today's digital world and how it can help them in today's life.
- Tracking record after the completion of module and course.
- Daily Email to Manager on Participants progression.

Store Employee in Mary Potter Hospice - Wellington, New Zealand

January 2020 - March 2020

I have worked as a volunteer at a service desk at a retail shop.

- Interaction with people from different countries, culture and ethnicity. It was a great experience to interact with new people and work for the community.
- Sorting and organising donated goods into various categories with its prices.
- Selling and keeping records in the system.
- Dealing and communicating with customers and team members.
